

PERSONAL BALLISTIC SHIELD

Armour of America was founded in 1972, based in Auburn, AL, and is a wholly owned subsidiary of Arotech Corporation which provides quality defense and security products for the military, law enforcement and homeland security markets. AoA manufactures ballistic products such as vests, plates, Leguards™, helmets, visors, shields, blankets and curtains.

Our Personal Protective Ballistic Shields incorporates a lightweight design that protects to NIJ Level IIIA, III+, III++ or IV. The Polycarbonate material used for the viewport is shatter proof while defending the user against ballistic rounds, rocks bottles and other thrown objects. Polycarbonate also provides a clear unobstructed view. The handle is securely bolted to the shield and provides a positive firm grip in any position. Our shields come with an optional shoulder strap which allows the user to rest without compromising cover.

Sizes available: 20"x34", 24"x36", 31"x48"
Custom sizes available upon request.

Our shields include the following features:

- Shield is finished in flat black with the strike face finished with aircraft "wing walk surface" for increased durability.
- Handle - allows for left or right hand use.
- Area below handle is padded for comfort while the shield is supported with the forearm.
- Viewport available in NIJ Level IIIA, III or IV Polycarbonate glass with multiple hit capability.
- Optional shoulder strap for better weight distribution.
- Visibility up to 88% light transmission.
- Custom sizes available, call our Sales Department for more information.

Our Ballistic Shields will provide NIJ Level IIIA, III+, III++ or IV ballistic protection.

View our shield offerings on GSA schedule number GS-07-F-9451G.
